Print Packages

Our print packages can be for multiple image numbers or for a single image. Please make clear on the order form, which size you would like each image number to be and which package number it is.

When we prepare the images for your proof packs, we decide artistically how we feel an image looks best, colour, black & white or sepia. Your ordered prints will be printed as they are on the proof sheet unless you ask us otherwise. If you require a print changing then please make a clear note of this on the order form.

Disc Packages

You will receive a disc containing all the image files. These will be hi resolution so that you can reproduce them however you like. We are selling the copyright to the images on these packages to allow you to reproduce them without needing to ask for permission. The image files on the disc are jpeg which is the file type used on all computers and printing labs.

The images will be exactly as they appear on the proof sheet, i.e. in black & white, colour and sepia. If any changes to colours are required then please contact us prior to ordering.

Individual Prints/Additional options/ Minimum order

There is no minimum order.

You are not required to order a package and we have a number of prices for individual prints and additional options such as framed and canvas prints available.

Print Presentation

The prints ordered will be loose and not in presentation folders. This is due to the high volume and mass production style of working for nurseries.

Presentation folders can be purchased at an extra cost, please see prices below and be sure to make a note on the order form of quantities.
